

Westbourne School

Pupil Premium Statement

Westbourne School is an independent special school.

Entry to the roll of the school is by referral from Local Authorities who are seeking placement for some of their most vulnerable young people.

Consequently, the fees associated with our students would normally cover the support, guidance and therapeutic intervention that the students need. Therefore, Westbourne School does not claim Pupil Premium as the provision in the school will meet the students' needs.

This does not include Pupil Premium budgets associated with looked after students that are held by the Virtual School of their home authorities and are spent according to the needs identified by the Virtual School and not Westbourne School.

Pupil Premium Plus funding is allocated and managed on an individual learner basis. As funding decisions are tailored to the specific needs and circumstances of each pupil, details regarding allocation and expenditure are treated as confidential and shared only with relevant professionals on a need-to-know basis.
